Open Science Fair Madrid

25 September, 2023

14:15-16:15 - workshop2 - room Nouvel Protocol

LIBER and UNESCO propose

a hands-on workshop about Discovering, adopting, adapting and taking advantage of the open science Recommendation toolkit for implementing open science practices and services in your institution.

Target audience, but not restricted to

Open science strategists, services and practitioners ; mainly research support staff and libraries.

Workshop objectives

- *bring together and empower open science communities and services: this is the very spirit of this workshop where people exchange ideas and build their pathways to implementing the UNESCO Recommendation on Open Science Principles, Values and 7 Areas of action*
- *identify common practices related to open science: use and share practices under the framework of the international UNESCO recommendation on Open Science, discover the example of the LIBER Strategy regarding Open Science, small groups of*

Speakers and facilitator

Ana Persic, Programme Specialist at the Section of Science Technology Innovation Policy at the UNESCO Headquarters in Paris

Dr Ana Peršić is Programme Specialist at the Section of Science Technology Innovation Policy at the UNESCO Headquarters in Paris. An ecologist by training (Master in Ecotoxicology at the University of Padova, Italy and PhD in Ecotoxicology at the University of Paris South, France), Dr Ana Peršić joined UNESCO in April 2006 as Assistant Program Specialist serving the UNESCO's Man and the Biosphere Programme within the Division of Ecological and Earth Sciences. She then served as Science Specialist at the UNESCO Liaison Office in New York from 2011 to 2018. Her work relates to strengthening the science-policy interface and the promotion of science technology and innovation in the implementation of the Sustainable Development Goals. Since 2019 her focus has been on open science – she coordinated the development of the UNESCO Recommendation on Open Science and is currently working towards its implementation.

- **Julien Roche**, LIBER President

Julien Roche served as Director of the libraries of the University of Lille – Sciences and Technologies from 2005 to 2018, where he led a strategic project for the university: the creation of the LILLIAD Innovation Learning Center, to support the innovation process of the university, including a new building opened in September 2016. Following a merger

discussion and wrap-ups to share outputs, challenges and words of wisdom

- see what the best synergies are to deliver and operate services that work for many : sharing experience and reflecting on pathways for action is an effective way for fostering and enhancing synergies
- bring experiences from all around the world and learn from each other : UNESCO is global, LIBER is European, this workshop is open to all and aims at facilitating collaboration, thinking “out-of-the-box” and developing one’s professional network.

Workshop schedule in a nutshell

1. set of three 5-mn presentations : workshop introduction, UNESCO, LIBER
2. participants’ input about Open implementing an Open Science strategy at an institutional/network level : main challenges and pitfalls
3. two break-out groups rounds : small groups of discussion working on how to take advantage and implement the UNESCO’s recommendation on Open science Principles, Values and 7 Areas of action in the institutions and networks
4. wrap-up, concluding remarks and farewell

Distributed documents and shared links

Available on the workshop take-home notes document.

Cécile Swiatek Cassafieres : cswiatek@parisnanterre.fr

of Lille’s three universities he became, in March 2018, director of libraries at the newly enlarged University of Lille. From 2010 to 2016, Julien served on LIBER’s Executive Board. He was also Chair of the LIBER Steering Committee on Reshaping the Research Library and led the Leadership Working Group, which is responsible for two leadership programs: the Emerging Leaders programme (part of the LIBER brand since 2011) and the LIBER Journées programme, launched in 2015. In July 2018, he was elected as LIBER Vice-President. In July 2022, he was approved as LIBER President.

Julien Roche also has several national responsibilities including co-chair of the French training professional program for newly appointed university library directors, and co-chair of the “European and international” college of the French Open Science Committee since July 2018.

- (General presentation and facilitation by) **Cecile Swiatek Cassafieres**, LIBER Board Member and UNESCO independent expert on Open Science Global Partnership

Cécile Swiatek Cassafieres is University Librarian and Library Director at the Université Paris Nanterre, France. Member of the Executive Board of the European league of research libraries (libereurope.eu) and SPARCEurope, former Secretary General of the French academic libraries association ADBU (adbu.fr, 2016-2021), she takes a curious and critical look at Open Education issues. She is a permanent national expert on Open Educational Resources in the International Open Science Network (ReiSo) for the French Ministry of Higher Education and Research. Expert on both the UNESCO Recommendations on OER (2019) and Open Science (2021), she has also been bringing her skilled and accurate vision as an expert with the French National Open Science Fund (FNSO, Calls for projects and SCOSS) and as an independent expert with UNESCO’s global partnership on Open Science from 2023. In 2022, she joined the recherche.data.gouv.fr Steering Committee and she is leading the ADN Nanterre Data Management Cluster.
